

Sustainable Severn Sound Sustainability Action Plan, 2016-2018

The Sustainability Action Plan will guide the activities of Sustainable Severn Sound and the Sustainability Plan Steering Committee over the next three years.

Our Vision

Sustainable communities within the Severn Sound watershed.

Our Mission

Sustainable Severn Sound champions the integration of sustainability principles within our partner municipalities and their communities.

OUR OBJECTIVES FOR 2016-2018

What We'll Achieve....

Effectively share information with our project partners, developing monthly bulletins and a website dedicated to featuring sustainable practices and funding opportunities.

Deliver presentations, workshops and events designed to introduce municipalities and their communities to sustainable practices, techniques and ideas.

Review and assess the status of the Sustainability Plan actions and distribute a sustainability report card.

SUSTAINABILITY BUILDING BLOCKS

The following are 10 core sustainability issues* which impact municipalities and their communities. These issues will provide the framework for the information we provide.

Climate Change

Greener, Food-Secure Communities

Community Economic Development

Housing and Community Development

Energy Efficiency and Renewables

Land Use, Urban Form and Community Design

Green Building

Transportation Planning and Traffic Management

Waste Reduction and Recycling

Water and Sewage

*Toward Sustainable Communities. Solutions for Citizens and Their Governments - Fourth Edition, Mark Roseland, July, 2012.

PROJECT IMPACTS

- 1 Improved awareness of sustainable practices.
- 2 Increased adoption of sustainable practices.
- 3 Enhanced culture of sustainability.
